7 lockers 21 lockers 42 lockers

UP TO 165% MORE LOCKERS IN YOUR SPACE

FEATURES & BENEFITS

These unique locker pods from Dexion are designed to maximise compartment numbers in a locker room.

The standard welded frames as on the rest of the Dexion locker range are utilised here for their strength and robustness. Providing many years of service.

Four locking systems are available . See opposite.

Dexion Locker Pods are available in six exciting door colours with stylish silver bodies, any combination should brighten up your staff locker rooms.

Every door feature a ventilation with additional perforation available upon request.

ALTERNATIVE LAYOUT

Placing the lockers alternatively side by side still enables a more traditional layout of lockers in rows, but increases the number of lockers possible in a defined space.

GARMENT DISPENSOR AND COLLECTOR LOCKERS

On Garment Dispenser lockers a single service door provides access to all the inner compartments, enabling the fast and easy distribution of clean garments, towels, etc. Individual compartments remain secure and individual keys are still required.

5 DOOR LOCKER

10 DOOR LOCKER

15 DOOR LOCKER

GARMENT COLLECTOR
A single locker door with post box style slot allows for the easy collection of soiled garments.

DOUBLE FRAME DOOR
Having a double frame allows two kinds of access to lockers

MASTER KEY
Master keys allow access to all lockers at the same time, enabling quick refilling.

COMPARTMENT KEYS
Separate compartment keys allow individuals access to only their locker

HIGH CAPACITY LOCKER

The Dexion High Capacity Locker has been designed especially to provide maximum personal storage. The locker features two fully adjustable height shelves, one with a hanging rail for maximum flexibility.

HEIGHT 1780mm
 WIDTH 610mm
 DEPTH 460mm

ADJUSTABLE HANGING SHELF.

HIGH CAPACITY
 HEIGHT 1780mm
 WIDTH 610mm
 DEPTH 460mm

ADJUSTABLE SHELF.

LOCKER STAND

Lockers are often used in wet floor areas or where the floors require frequent cleaning. Locker Stands provide maximum floor access and lift the lockers off the floor. This stand is manufactured to suit particular installations using 25mm square tube.

LOCKER STANDS

Stands are available to suit any number of lockers, all come with adjustable levelling feet.
 HEIGHT 150mm

PPE LOCKERS

Personal Protective Equipment (PPE) is mandatory in many working environments, controlling and storing your safety equipment properly can prolong its life. An effective solution are Dexion's specially designed PPE Lockers.

BENCH SEAT

Freestanding Bench Seats are fitted with three hardwood slats. Frames are made from robust 38mm square tube and available in lengths of 610mm, 915mm, 1220mm and 1525mm

LOCKER SEAT & STAND

Two hardwood slats and metal framework form a bench seat in front of the locker, allowing full height access. Benches and stands all come with adjustable levelling feet.

MEDICAL LOCKERS - Good Hygiene

HIGH HYGIENE STANDARDS

Dexion Lockers offer a comprehensive range of personal and equipment storage solutions aimed at the hygiene conscious medical sector. This range incorporates the world class anti-bacterial technology in both the plastic fixtures and the ActiveCoat® powder coating on the metal structures.

QUALITY

With all Dexion products you can be assured of the highest quality components, construction and finish.

FEATURES

Every Dexion Locker features an integral air vent system*, a micro sprung disc lock, 5 knuckle hinges, welded front frame & internal door strengtheners*.

Even the standard lock on a Dexion Locker has a micro sprung 10 disc lock featuring 3000 possible serial combinations.

* Not available on some lockers due to manufacturing constraints.

ACTIVECOAT® TECHNOLOGY
Hard wearing anti-bacterial powder coating. For the most stringent of hygienic environments.

IRON PHOSPHATE KEY COAT
This anti-rust, key coat acts as a bond between the steel and the ActiveCoat.

PREPARED STEEL SURFACE
Chemically cleaned steel ensures an ideal surface for coatings.
