# Vertical Racking Systems

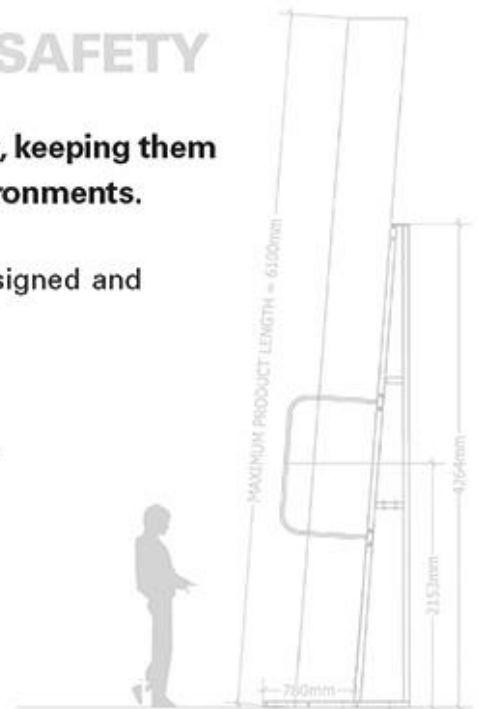

...FOR QUALITY, EFFICIENCY AND SAFETY

Vertical racking is the ideal method for storing long items upright, keeping them secure and orderly within a variety of retail and warehouse environments.

Our expertise and knowledge ensures that your vertical racking is designed and fabricated to the highest quality and specification.

## Features & Benefits

- Two different styles of vertical racking available, with adjustable dividers and a choice of heights
- Can be utilised for single or double sided storage
- Optimises your floor space usage and efficiency, inside or out
- Enhances your stock management and product presentation
- A simple to install, cost effective storage solution

# Vertical Racking

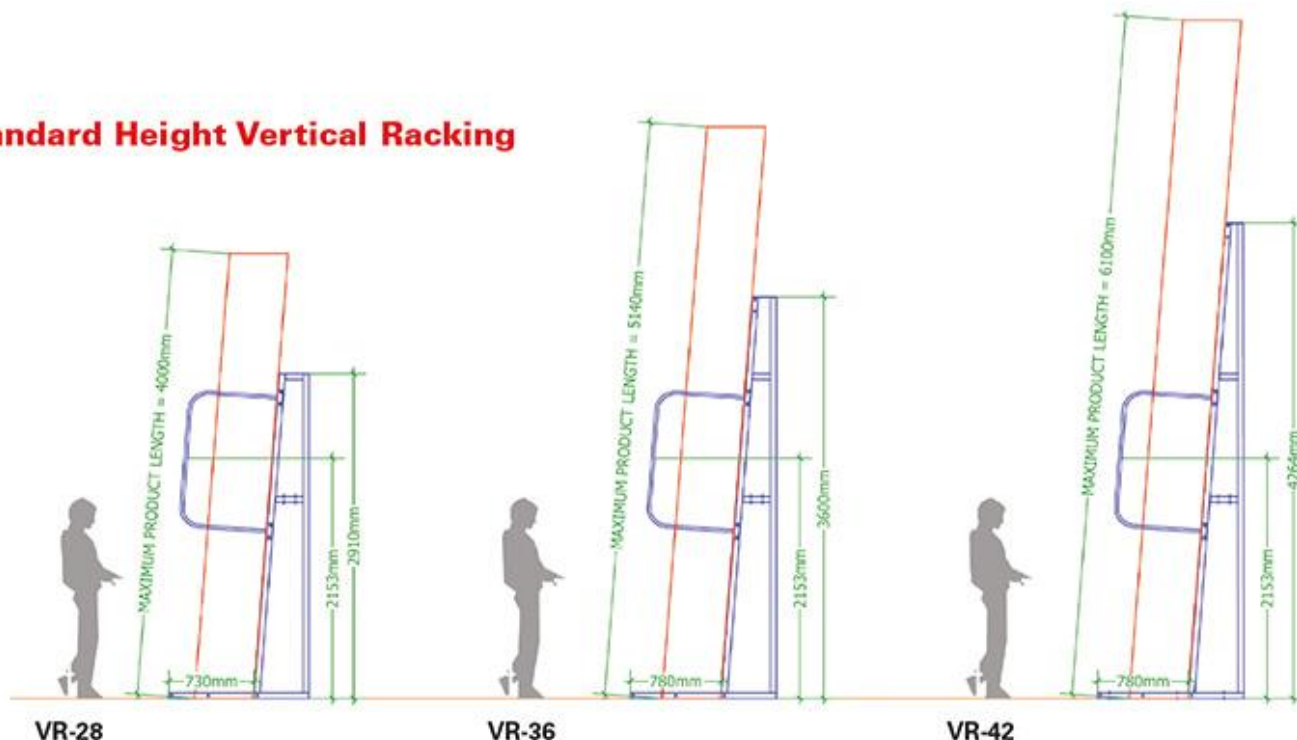

If you store or retail large quantities of long products, vertical racking systems will almost certainly improve the space management and efficiency of your organisation.

Our vertical racks are competitively priced, manufactured from mild steel, in a variety of heights, all are designed to be sturdy, functional, flexible, and can be finished to match your colour requirements.

## Flexible design to suit your requirements...

Unit dimensions come as standard, but the modular design allows further units to be attached alongside or behind to accommodate any space requirement. In addition, the dividing arms may be adjusted in terms of spacing and quantity to house changing products and stock levels. We can offer you a full consultancy, design, planning, manufacturing and installation service to take account of your individual requirements.

## Standard Height Vertical Racking

## Applications include the following:

- Timber and beading products
- Plastic extrusions and conduit
- Plastic, copper and upvc piping
- Glass and aluminium bars
- Doors and ladders
- Any product up to 6m in length
- Roofing sheets and worktops

Product (mm)	Height (mm)	Depth (mm)	Storage Depth (mm)	Unit Length (mm)	Max Product Height (mm)
VR-15	1500	550	380	1350	2500
VR-27	2700	550	380	1350	4000
VR-28	2910	1200	700	3040	4000
VR-36	3600	1250	750	3040	5140
VR-42	4264	1250	750	3040	6100
